Maria Ilnytska

Part-Time Programmer

About Me

Computer Science student at CNU with practical experience as a Programmer-Technician at the Department of Education. My work includes workflow automation, such as developing a WhatsApp bot and managing databases. I am currently working on web and cross-platform projects using React and .NET MAUI. I have knowledge of C#, Python, Java, and JavaScript, and I use AI tools (ChatGPT, Gemini, Claude) to assist with development and technical support tasks

Language

Ukrainian: Native
